The skip a payment program applies only to select installment loans (mortgages, lines of credit and credit cards are excluded) and is subject to approval by SunWest. Account must be in good standing at the time of the request. Interest will continue to accrue even though a payment is not required. Offer applies for loans that have not already skipped a payment in the last 12 months. GAP (Guaranteed Asset Protection) does not cover skipped payments. Credit life and disability will only be in effect for the original term of the loan.
